The founders of this firm were the first to use the terms "Production Engineering" or "Industrial Engineering" to characterize that field of engineering effort in which they, as individuals, had for years been engaged and to which so much attention is now being given on the part of the public under the title "Efficiency Engineering."

NEW BEDFORD STREET DIRECTORY 1911

(Copyright 1911 by W A Greenough & Co)

Giving the location of each street and showing streets running from or across, with the number at intersection.

The streets of New Bedford, with few exceptions, are laid out north and south and east and west. Those running north and south number at Union street, and increase each way, with the even numbers on the east and the odd numbers on the west side. Those running east and west begin to number at the river, and increase westerly, with the even numbers on the south and the odd numbers on the north side. The letter S enclosed in parenthesis, which follows the name of any street, signifies the general bearing of such street from City Hall square. Thus School street (S) is south from City Hall square.

*Unaccepted streets.

At its southerly extremity on the river side is a large tract of land belonging to the United States at the extremity of the point is Fort Rodman. Around this point, a distance of about four miles, is a road not surpassed by any public drive in this country. It is called East and West French avenues, commencing at Cove street and follows the shore, thence along the western, southern and eastern boundaries of the point, until it terminates in the street where it has its beginning. It is eighty feet wide, smooth and level, and in its course commands a series of views of surpassing love-

liness and beauty. The cove, the bay, the river, the shores, the islands, the ledges, the lighthouses, steamers and sailing craft of every description, the city on one side, its sister town of Fairhaven on the other and the noble bridge between, constitute a series of views which render a ride or a walk over this rode most delightful and attractive. The City Farm and Almshouse is located on Clark's Point.

CLIFFORD. A settlement with a post office of the same name about three miles north of Acushnet.

DOGFISH BAR. The collection of houses near the foot of Coggeshall street is often called by this name, which designates a shoal in the river near by. A bridge crosses the river at this place for Fairhaven.

New Bedford Times

Times Building

Contains over 40,000 square feet, the largest newspaper structure south of Boston.

The Times is the only paper in New Bedford that owns the building it occupies.

The remarkable growth in population and increase in property values the last ten years in New Bedford is due largely to the persistent and aggressive and progressive support given by the New Bedford Times.

When people are made to realize the advantages of their own city, they readily recognize the importance of building it up.
